

## There's No Better Time Than Now To make Your Investment In Solar Energy:

- With all the incentives, your investment in solar will show an immediate positive cash flow
- As the cost of electricity soars, your solar energy investment appreciates with a greater return each year.
- Own your own solar energy power plant and increase your bottom line.
- Take advantage of all the tax credits and rebates and become part of a global solution.

Now more than ever, Americans are being hit where it hurts the most . . . in their pocket books. And now, more than ever, solar makes financial sense.

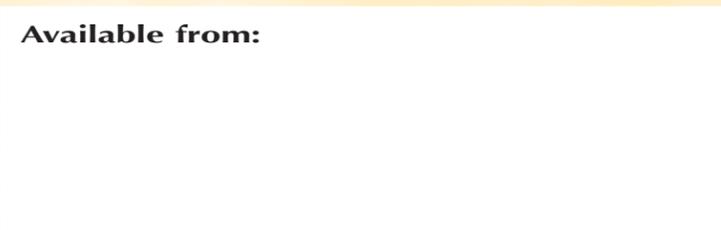

### Local Service With A Global Conscience

Established in 1991, Suntutrek Industries, Inc. is a leading provider of solar electricity, hot water, and pool heating systems. A manufacturer, equipment integrator, and licensed solar contractor, we are a one-stop resource for all the solar needs of residential, commercial, and industrial markets.

Our business is based on traditional values of hard work, integrity, and personalized service.

## Spin Your Meter Backwards And Slash Your Electric Bill

Convert sunlight directly into free electricity! Watch your meter spin backwards as you sell your electricity to the utility company.

Power your home or business with free and non polluting energy from the sun.

Instead of paying your utility company every month, invest into your own utility company and put your hard earned money back into your home or business.

- Huge Rebates
- Big Tax Credits
- Great Savings
- Accelerated Depreciation

## Fossil Fuels: A Dangerous Addiction

Our whole way of life revolves around fossil fuels – a non-renewable resource that may be exhausted within the next 30 years. Our daily use of fossil fuels to power our homes, businesses, and vehicles comes with an exorbitant price. In addition to subjecting ourselves to skyrocketing energy costs, we are continuing to inflict serious harm on our environment and intensify our dependence on foreign countries, many with hostile political climates.

**Transform Your Energy Liabilities Into An Asset.**

- Great financial incentive for homebuyers
- Attract more buyers to your project
- Distinguish your brand as a leader in environmental design

### RESIDENTIAL • COMMERCIAL • MULTI-FAMILY • INDUSTRIAL • DEVELOPERS

- Our government will subsidize over 70% of the investment for business
- Increase self reliance and reduce pollution
- Drastically cut operating costs

- Stand out as a "Green Business"
- 5 year accelerated depreciation = Great tax savings
- Often a 100% ROI in 3-5 years

- We work seamlessly with your subcontractors
- 25 year product warranty
- Be a part of the global warming solution
