

SOLAR COLLECTORS

The new GOBI has undergone a complete transformation for 2011 making it the industry's best flat plate collector. By redesigning the frame and incorporating state of the art components, the GOBI has a reduced profile and even better performance. With 3 sizes and 2 absorber surface types to choose from, there is a GOBI collector for every type of solar water heating application.

Thinnest Profile – The redesigned frame is easier to handle for installers and offers the end user a streamlined, sleek look on their roof compared to bulky traditional flat plate collectors.

Rated Top Performance – New SRCC ratings certify that the GOBI now ranks among the best OG-100 collectors. The high energy output of the GOBI offers maximum performance out of the solar hot water system.

Easiest to Install – The GOBI retains its unique Dyn-O-Seal (DOS) union interconnection method. DOS unions come factory assembled and eliminate the time consuming task of soldering each collector together in an array.

New Design Features

- 1" reduction in frame thickness
- Improved insulation
- Full plate absorber
- Rounded edge profile
- OG-100 certified with higher performance and efficiency

DOS unions are included to connect and cap off collectors

TECHNICAL SPECIFICATIONS

NOTE: GOBIs all have a depth of 2.8"

SRCC SRCC OG-100 RATINGS (CLEAR DAY)

Category (Ti-Ta)	GOBI 406 001	GOBI 408 001	GOBI 410 001
Certification Number	2010115C	2010115D	2010115A
A (-9°F)	38.3	46.2	57.6
B (9°F)	34.9	42.0	52.4
C (36°F)	29.7	35.8	44.7
D (90°F)	20.3	24.5	30.7
E (144°F)	12.0	14.6	18.2
